DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Information Disclosure Statement

The IDS filed 4/13/04 has been reviewed and made of record.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

3. Claims 1 and 3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In particular, both the method and apparatus as claimed requires/recites/claims

"..."acquired by a predetermined relational expression between the focus search driving voltage Q and the focus search driving voltage R...". However, this predetermined relational expression is not defined in the independent claims.

The relational expression is further defined by dependent claims 3 and 4.

Allowable Subject Matter

4. Claims 3 and 4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Kobayashi ('672) denotes prior art disc discrimination techniques in this environment relying upon the procedure as established by figure 4 for instance.
